

An alternative to regular YouTube
to help you keep your children safe online

YouTube **KIDS**

Dive into a world of discovery,
learning and fun

YouTube Kids gives your family an easy way to watch their favourite programmes or explore anything that captures their imagination. It's free, simple to use and full of family-friendly videos.

Description

The official YouTube Kids app is designed for curious little minds. This is a delightfully simple (and free!) app, where kids can discover videos, channels and playlists they love.

We work hard to offer a safer YouTube experience, but no automated system is perfect. If you ever find a video you're concerned about, please flag it. This helps make YouTube Kids better for everyone. For more important notes about the app, please see below.

DESIGNED FOR KIDS

To make exploration easy, videos in the app are split into four categories: Shows, Music, Learning and Explore. We also took out the complicated stuff to make an app even little ones can navigate -- that means big buttons, easy scrolling, and instant full-screen. And when the whole family wants to enjoy their favorite videos together, everyone can watch on the big screen with Chromecast, game consoles, or smart TVs.

VIDEOS KIDS WILL LOVE

Kids can enjoy favorites like Thomas & Friends, DreamworksTV and Talking Tom, online hits like Mother Goose Club, Super Simple Songs and Wonder Quest, plus anything else they're into -- sports, animals, gaming, crafts and more.

GROWN-UPS ARE IN CONTROL

We know that every family is different, so we've included features that let grown-ups tailor the YouTube Kids experience to their family's needs. Settings are found behind a grown-ups-only lock where you can turn off search for a more restricted experience or set a built-in timer to let kids know when it's time to stop watching so you don't have to.
